2024 conference de-brief

Survey results were not as plentiful as projected. Will be announced with a QR code in the closing keynote and a follow-up email during the 2025 conference and another email the following day.

The survey will be kept with the same process as a Google and will add planning for Survey into Conference Planning agendas.

Survey comments included in the responses stated that they would like a CDE pre-session about Dashboard results since CDE sessions to help justify travel and that they liked the space all on one floor all together, because the most important part is networking with colleagues.
